## Estimate Request

### Measuring your pool

To request your **FREE ESTIMATE**, fill out and fax this form to a Katchakid Technician at **1.713.463.8307** or call **Toll Free** with your pool measurements at **1.888.552.8242**.

In order to simplify providing an estimate, most pools use one of these diagrams as a guide to measure your pool.

Place your pool in an imaginary rectangle, then using a measuring tape, measure from the inside coping edge (waters edge) for maximum length and width of your pool. Please do not add on any more than required, as this will only increase the price for your cover.

Name: \_\_\_\_\_

City: \_\_\_\_\_ State: \_\_\_\_\_
